AVERAGE HEIGHT: 150-250CM

The Nori Cake gets its name from the famous Japanese algae used in snacks and sushi all over the world, it is a very exciting variation of flavors that will make all the Kush Lovers happy. This plant is a cross of the Kush Mint from Seed Junky, known for its potency and strong taste, with our Wonder Pie and its strong OG Kush background. The Nori Cake grows in a strong plant that develops vigorous secondary branches, with dense and big flowers. The effects are strong and fast, and it is recommended for experienced smokers, rather than beginners. It will give you the munchies and red eyes for a while, making it perfect to enjoy a movie night.

Milky Dreams

MOTHER'S MILK X PERSIAN PIE

40% SATIVA - 60% INDICA
THC: 25,00% CBD: 0,30% CBN: 0,40%

FLOWERING INDOOR:	8-9 WEEKS
YIELD INDOOR:	HIGH
OUTDOOR HARVEST:	BEGINNING OF OCTOBER
YIELD OUTDOOR:	1600G/PLANT
AVERAGE HEIGHT:	150-250CM

The Milky Dreams is a mix of a selected Mother's Milk from Bodhi Seeds, crossed with our Persian Pie and its powerful combination of lemon and banana flavors. This plant grows into a beautiful pine tree-shaped plant with a lighter color of green, with compact flowers and sometimes the branches might need some help to hold the weight at the end of flowering if the plant is big! The effect is strong but balanced, something in between a strong body feeling and an uplifting high from the fruity terpenes. A pleasure for every sweet tooth!

CARAMEL APPLE GELATO X KING'S TART

35% SATIVA - 65% INDICA
THC: 26,00% CBD: 0,52% CBN: 0,30%

FLOWERING INDOOR: 8-9 WEEKS
YIELD INDOOR: HIGH
OUTDOOR HARVEST: END SEPTEMBER
YIELD OUTDOOR: 1300G/PLANT
AVERAGE HEIGHT: 150-250CM

The Tart Tatin is the new addition to the Green House Seed Catalog. This beautiful plant is the result of the cross between the Caramel Apple Gelato from Compound Genetics, and our powerful King's Tart. Expect to have plants with a nice caramelized vanilla-apple taste and a strong, creamy background. The Tart Tatin grow very vigorous, with a low leaf to flower ratio and medium-length internodes. The flowers can turn blue and purple during the final stage of the flowering time, with an incredible amount of trichomes. The effects are strong, fast hitting and will last for a while, giving a smooth body feeling and some light head buzz. A beautiful smoke from morning till nighttime.
